ATT. Mr. Michael K. Powell
Chairman

Dear Mr. Powell:

If it is unfair to force the regional Bell companies to permit their rivals to have low-cost access to new equipment for high speed Internet services as well as to other services.

I am a shareholder of SBC Communications among 100+ shares.

It just does not make any sense for those companies to receive such competitive advantage as they do not have or made any investments in the regional Bell companies.

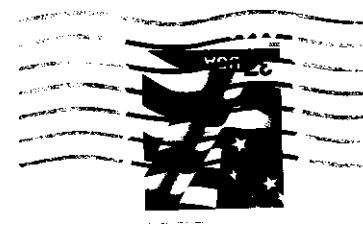

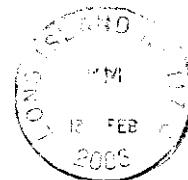

Respectfully,

No. of Copies req'd
